The hottest products for the hottest trucks

Only from Belmor – the brand truckers prefer

Enhance your truck with Belmor

At Belmor Heavy Truck Products, you will find premium products that enhance the look and performance of your heavy-duty truck: High-tech hood shields and visors made of 304-grade stainless steel with an ultra-reflective X10 mirror finish. Vacuum-molded window deflectors that let fresh air in as they keep rain and snow out. Designer bug screens that repel bugs off radiators and chrome. Plus a brand new line of stainless steel trim, light bars, panels, fenders and more – all with a custom look and superior quality.

Enhance your truck with Belmor. The brand truckers prefer.

Customize your truck with stainless steel, stealth LED lights, smoked acrylic and more

Aeroshield Stainless – NEW

Enhance your truck with the all-new Stainless Steel Aeroshield from Belmor. Made of durable non-corrosive and non-magnetic premium 304-grade stainless steel with an ultra-reflective X10 mirror finish, it deflects bugs and debris, giving you a clearer line of sight. And its sleek wrap-around end panels provide a snug and secure custom fit, mile after mile. Backing up Aeroshield's quality and performance is Belmor's Limited Lifetime Warranty.

Next Gen Aeroshield in Smoke - NEW

Do you prefer a shield with a cool smoke finish? Get the Next Gen Aeroshield, engineered for the next generation of heavy-duty trucks and beyond. Sleeker and more aerodynamic than competitive shields, the new Next Gen Aeroshield hugs the front of the hood, deflecting bugs and debris away from your windshield, so all you see is the road ahead. Installation is easy, thanks to its one-piece design and wrap-around end panels. We stand behind it with our Limited Lifetime Warranty.

Aeroshield II

Aeroshield II is the #1 bug deflector on the road today, because of its performance – it repels bugs and debris away from your view; construction – it features a durable polycarbonate shield permanently set into a

heavy-duty aluminum extrusion that bolts securely to the hood; design – its polished chrome end caps wrap around the sides for a custom fit; and dependability – it's backed by Belmor's Limited Lifetime Warranty. Get Aeroshield – the brand that truckers prefer.

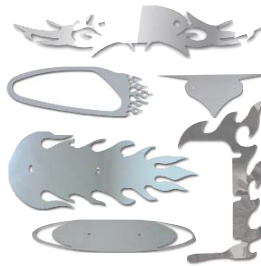

Stainless Steel Sunvisors – NEW

The visor on your truck reflects your personal style. That's why you need a Belmor Stainless Steel Sunvisor, available in a variety of drops, with V-style and bowtie designs, many with stealth LED lighting. Made from premium, non-magnetic, non-corrosive 304-grade stainless steel with an ultra-reflective X10 mirror finish, they visually enhance your truck while filtering out sun and road glare. Mounting hardware is included; just put on your Sunvisor and drive.

Premium Stainless Steel Accessories – NEW

Outfit your truck with high quality stainless steel accessories from Belmor – mud flap hangers, light bars, panels, enclosures, trims, emblem accents and more – in a variety of finish-

es, stealth LED or incandescent lighting. All feature the solid construction, innovative design, custom fit and stylish details that truckers expect from an industry leader.

Bug Screens

Stop bug splatter from damaging your radiator and sticking to your chrome grill with a Belmor Bug Screen, tailor-made for your make and model. Available are Standard Bug Screens in black, white, or silver mesh, as well as Designer Bug Screens featuring OEM logos and American flags. All mount easily with snaps or turnbuckles, for a fresh, clean look fast.

Winterfronts

When temperatures drop, replace your Bug Screen with a Belmor Winterfront. Made of heavy-duty reinforced vinyl, it helps keep your engine warm, even in sub-zero temps. Installation is easy – just snap off the Bug Screen and snap on the Winterfront, using

the same hardware. And with American flag, black quilted and OEM logo designs, you're sure to find a style that's right for you.

Venta-lators and Ventshades

Now you can let fresh air into the cab – even during the worst weather – with side window deflectors from Belmor. Choose from smoke-tinted acrylic Venta-lators that go over the top of open windows and down the vent pillar, or cover just the window top with our stainless steel Ventshades. Easy to install, they are available for almost every make and model, including high visibility doors and door/cab-mounted mirrors. You'll stay awake, prevent windows from fogging up and drive safer, longer.
